## Education

**Columbia University, New York City**

*Graduation Expected: May 2026*

*Master of Science in Urban Planning*

*New York, NY*

**University of California, San Diego**

*Aug. 2019 - June 2023*

*Bachelor of Science in Global Health*

*La Jolla, CA*

*Minor: Urban Studies and Planning*

## Academic Projects

*Studio: Planning for Change in Renca, Columbia University, New York, NY*

*Jan. 2025 - May 2026*

- Led community engagement for a semester-long planning studio examining the impacts of Metro Line 7 expansion on Renca, a historically underserved municipality on the periphery of Santiago.
- Designed and implemented participatory engagement methods, including pop-up activations, surveys, informal interviews, and a facilitated community workshop.
- Synthesized qualitative and spatial data into planning analysis and community-informed recommendations.
- Co-authored a final report for the Municipality of Renca and developed a presentation; studio selected to present at the APA New York Metro Chapter Studio Showcase.

## Work Experience

*Assistant Planner, City of Ojai, Ojai, CA*

*Dec. 2023 - Current*

- Support current and advanced planning projects, including ordinance development and the City's General Plan Update (Climate Action Plan and Economic Diversification Element).
- Serve as staff advisor to City commissions and present research, analysis, and recommendations at public meetings.
- Drafted and presented the City's Tiny Home Ordinance to the Planning Commission and City Council.
- Coordinate affordable housing initiatives, including a permanent supportive housing project serving unhoused residents.
- Led the transition from a paper-based permitting process to an online permitting platform; review development applications and manage public counter operations.

*Emergency Room Technician, Adventist Health, Simi Valley, CA*

*Jan. 2021 – Aug. 2021*

- Supported emergency department operations through patient intake, vital sign monitoring, and specimen collection.
- Maintained clinical readiness through supply management and sanitation protocols.
